

BIODIVERSITY POLICY STATEMENT

Biodiversity is a complex feature of our planet, and is also the most vital for our survival. The term, biodiversity is used to describe all variety of life on earth, including all living organisms and the habitats they live, and the natural systems that support them.

Our business activities benefit from biodiversity such as natural resources and the water it produces, in all cycles of our product including the procurement of raw materials, productions, distribution, sales, use, and disposal. As a responsible business, we are committed to minimizing our impact on biodiversity and contributing to its conservation.” This Biodiversity Policy outlines our commitment to protecting and enhancing biodiversity in all aspects of our business operations.

Our aims are;

- Ensure beyond legal compliance behavior regarding biodiversity is adhered to by all staff, suppliers, contractors and other parties.
- Develop and implement our Biodiversity Action Plan, working towards set targets.
- Research and promote opportunities for the VuPlex community to engage in reducing the collective environmental impact from its operations and activities.

- Communicate with the Staffs and other parties to provide an opportunity for the involvement of key stakeholders in environmental improvements.
- Conserve and enhance existing, and create new habitats for a wide range of flora and fauna.
- Raise awareness of biodiversity found on our team, to engage with and educate, staff and other interested parties.
- Continue to promote healthy living and wellbeing through our everyday activities and social activities. Enabling the VuPlex community to enjoy the biodiversity and beauty of healthy environment.
- Seek appropriate grants and funding to support the VuPlex's biodiversity aims and targets.
